All computers are equipped to play music with speakers and a CD-ROM drive. CD and DVD burners are available at additional cost. Wireless network cards are available in place of modems for an additional \$15.

Special Program for Groups

NTR's *Introduction to Computer Hardware* workshop and **Free Internet Service** is available for groups of 8 to 15 people (or families), at no additional charge. Students will learn about the parts of the computer as they take it apart and put it back together. The workshop is open to anyone over 10 years of age, but we ask that any child below the age of 13 be accompanied by an adult. The free Internet service alone is worth over \$120/year. Talk with your church group or neighborhood organization to see if they are interested in sponsoring this Special Program.
